If you're having a formal conversation, then should be all formal Thai. Learn 15,000 words and phrases categorized into 350 topics. That shows a deep understanding of the process. I'm completing lessons without fully understanding it because there's no access to understand it fully or show why it was wrong / English translation. My second suggestion would be to fix the chat boxes. Associate each word and phrase with a suggestive and memorable illustration. I look forward to future updates to this app in hopes that it continues to have more lessons and levels for Thai in the future. If I miss the sentence it should at least show up in English what it was supposed to say so I put the words together to understand what each one was supposed to be. Speak confidently with the locals and stop making an effort when communicating. Here is the latest update of the Ling app: User interface and user experience improvements- Bug fixes Found anything suspicious? Very user friendly. It forces one who is already familiar but not yet literate to practice reading the Thai words in context while allowing us to toggle it on really quick to either help when stuck or even just verify what we think we just read.
